Wear Parts Specialists

G.E.T. AUSTRALIA

G.E.T. Australia is one of the Nation's largest ground engaging tools suppliers, bringing 40 years' experience and an unwavering commitment to safely and efficiently providing our customers with reliable, quality, fit-for-purpose products. Our vision is to be the leading ground engaging tools supplier to Government and the mining, construction, and aggregate industries.

G.E.T. has offices in Brisbane, Sydney and Melbourne. We provide fast and reliable supplies to our customers when they urgently need them. Our team is friendly, approachable, and extremely responsive, with decades of on-site experience working alongside customers in diverse terrain, complex operating environments and various geological conditions.

WHAT WE SUPPLY

Our ground engaging tools provide continuity for earthmoving, mining, agriculture, quarrying and construction activities, with fast turnarounds for replacement parts when existing equipment attachments wear.

We manufacture and distribute wear parts to suit all brands of earthmoving equipment throughout Australia and have specialised designs for specific applications. Our parts are compatible with all equipment brands including the following and many more:

- *Caterpillar* • *Komatsu* • *Esco* • *Hitachi*
- *John Deere* • *Kawasaki* • *JCB* • *Doosan/Daewoo*
- *Hyundai* • *Volvo* • *Liebherr* • *Kobelco*

Since 1988, G.E.T. Australia has proudly distributed quality wear parts in Australia from ISO9001-certified Canadian company, Black Cat Wear Parts.

WHAT MAKES G.E.T. DIFFERENT?

With offices across Queensland, NSW and Victoria, we have specialist representatives providing services Australia-wide. Wherever you are located, there are always expert technicians on hand to assist you. We specialise only in ground engaging tools – so you can be sure we stock the parts you need at one of our facilities or can quickly access what you require.

We provide personalised service, including site visits, phone and email support and on-site inventory checks. G.E.T. Australia values long-term partnerships with our customers, allowing us to understand your needs and anticipate your future requirements.

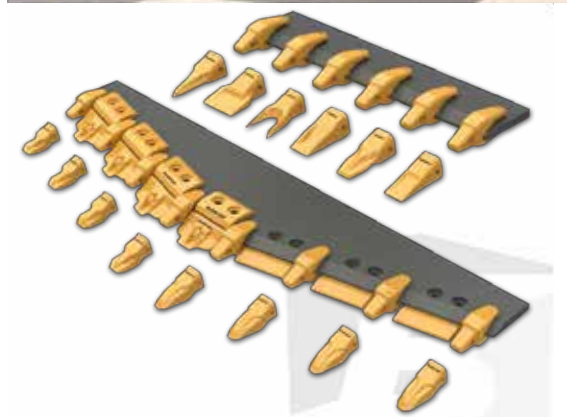

Our aim is to help you maximise wear life by providing quality wear parts. We maintain significant stock levels to save our customers from having to stock parts, and we always dispatch orders on the day they are received.

HIGH QUALITY WEAR PARTS

Cutting Edges and End Bits – We partner with Black Cat Wear Parts to stock quality hardened replacement cutting edges and end bits for a wide range of machinery including loaders, dozers and compactors, backhoes and bobcats, scrapers, graders and excavators.

Teeth, Adaptors and Rippers – We have an extensive range of heat-treated teeth, adaptors and rippers for many different functions and machines. These include loaders, dozers, compactors, scrapers, graders and excavators.

Wear Protection – Our chromium carbide wear plates comprising composite materials are made to last in the toughest, harshest operating conditions. We can tungsten-coat your parts to extend wear life in high abrasion applications.

PREVIOUS PROJECTS

G.E.T. has assisted multiple subcontractors working on major infrastructure projects across Australia, including pipeline construction for the APLNG Joint Venture in Queensland, the Queensland Curtis Island LNG project for QGC and CPB Contractors on the WestConnex Tunnel Project, Sydney. We provide support to earthmoving, mining, quarrying and construction companies every day.

OUR SAFE WORK CULTURE

The safety of our team and our customers is our number one priority. G.E.T. team members always demonstrate safe work practices and follow all health, safety and environment (HSE) procedures when on-site. We are continually improving our safety practices to ensure we provide a safe work environment for everyone, and we value sustainability and ethically working with our customers to maximise product life while minimising waste.
